## Crestron Dealership

### Crestron at Stirling University

Scotaudio are now authorised Crestron dealers, and have lost no time in winning their first installation. Against strong competition, our well engineered design, innovative use of technology and careful project planning resulted in rare praise from Stirling's IT manager, Graham Millar "they did a great job under less than ideal circumstances".

The install, across two IT training rooms, features one of the first applications of the MPC-M10 wall controllers. The install also features equipment from other Scotaudio dealerships, **LD Systems** SAT42A active speakers with auto power on; **Sennheiser** ew112 radio microphone systems and **Axis** 207 internet IP cameras.

## HADDEN

Scotaudio commence installation on behalf of Hadden Construction and Stirling Council at Bannockburn High School.

Using system components from pro partner Sennheiser, our install team have completed the first phase of an AV solution for the social spaces and Dance Studio within the building.

### Scotaudio in the press

The stunning new development by Crammond Select Homes at Bridge of Allan features on the front cover of upmarket homes magazine, the home seeker. Prices for these properties begin at £800,000 and all have had bespoke AV design and installation performed by Scotland's leading home automation installers - Scotaudio.

D&M Pro Dealer Scotaudio has supplied 12 Marantz PMD661 solid state recorders to Glasgow University - Custom Installer Magazine

### Showbiz News

A MEDIEVAL keep near Stirling has become the setting for a new Hollywood production by US cable channel HBO.

Scenes from Game of Thrones, starring Sean Bean, were shot at Doune Castle over the weekend. The series is based on George RR Martin's A Song of Ice and Fire series of fantasy novels.

Doune Castle is already a place of pilgrimage for movie fans, as it served for several locations, including Camelot, in Monty Python and the Holy Grail.

Scotaudio hire team supplied the playback equipment to Ronan Hill Sound of Co Antrim who were providing the sound recording services.

### Game of Thrones

### Rock'n'Roll

Just to make a change from the more commercial side of the business, our hire team have enjoyed working with Stirling University Students Union in providing the live sound and engineering for a host of bands on their Transmission nights.

The small HK Audio 2kW rig was put through its paces and performed extremely well given the demanding acoustics of the venue.

A couple of Chauvet COLORPalletteII LED wall washers were supplied free to add some dynamic lighting effects to the shows.

### Commercial installations

Recent new clients for distributed audio installations include D2 group and Holiday Inns.

## West Park Conference Centre Dundee

Working with clients, City-Holdings, Scotaudio provided a new sound system in the refurbished main conference venue. Using Bose MA12 line arrays to produce high levels of intelligibility, the resident technical team expressed amazement at how good the new system sounded. A first class venue now has a first class sound system.
