# INTRODUCTION

Congratulations on your forthcoming wedding, and welcome to our Wedding Audio Visual Handbook. In these pages, we list the most popular hire items available from our Dunblane Warehouse, give you some ideas and offer help and guidance in specifying equipment and getting the best out of any items you hire.

Your wedding is a special day, and we know from experience that you've enough to do without worrying about all the technical details on the day. We offer a one-stop shop for all the sound & lighting requirements you may need, with one point of contact dedicated to looking after your event.

Key to our service is customer support, so if you have any questions – or just need friendly and competent advice – just call our office number 01786 442022 and one of our team will do their best to help.

Further information regarding the services Scotaudio offer, such as sales, maintenance, design and installation is available from our web site [www.scotaudio.com](http://www.scotaudio.com).

Nothing brightens up a venue more than lighting! From simply adding fairy lights across the ceiling to battery uplighters – we can transform a room at the click of a switch. Here's some ideas:

## FAIRY LIGHTS

120m of warm LED Fairy Lights, plenty to drape across most hall ceilings and simply plug into a standard mains socket.

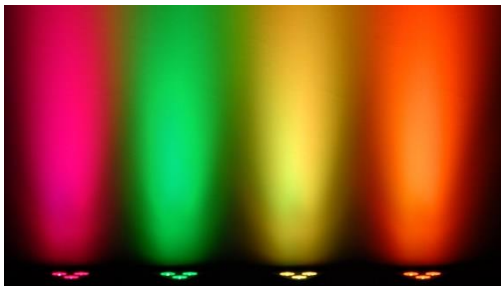

**£240 supplied and fitted**

**£425 for 250m fairy lights** (suitable for larger venues as per photo). Just let us know which venue and we can advise the best option for you.

**£10 for 5m 50 LED indoor/outdoor battery fairy lights**

– great for table decorations or highlighting.

## UPLIGHTERS

Our battery LED uplighters run cool so little fingers don't get burnt! Over 6 hours from a single charge, complete with remote IR control so you can set the colour you want – let them cycle through colour changes, or go wild with sound to light!

**Only £15 each for a 24 hour hire.**

Need more power? Our industrial strength mains LED uplighters are used to flood Stirling Castle great hall!

**£25 each**

## GOBO PROJECTORS

Project a picture or message onto the wall, floor or ceiling. Standard designs such as hearts or trees free with the high power LED LFS-75DMX – or we can produce custom designs with your names.

Internal colour wheel allows you to select a range of colours.

**£20 per projector**

## TWIN Q BATTEN PACK

Simple way of flooding an area with your chosen colour. This 2 batten pack complete with handy remote control is a breeze to use and simple to set up.

**£30/day for the twin pack.**

## UV POWER BATTEN

Want to get those UV body paints out? If you want to seriously weird out the in-laws, our UV power battens do what they say on the tin – they produce Ultra Violet light – and lots of it.

**£20 each**

## STARCLOTH

Hopefully not as big as the one we fitted at Stirling Castle – our usual size 8m x 4.5m complete with twinkling, fading, steady or sound to light LED stars on a pipe and drape system.

Put behind the stage or top table for best effect.

£150/day supplied and fitted

## BUBBLE MACHINE

Keep the kids entertained, big and small. Our bubble machine blows bubbles, lots of them.

**Only £30/day plus a bottle of bubble fluid £10.**

Just plug it in, turn it on, and off it goes.

Plus spotlights/smoke machine/strobes/Chinese lanterns – let us know what else you'd like and we'll do you a great deal so there's more money to spend on the honeymoon!

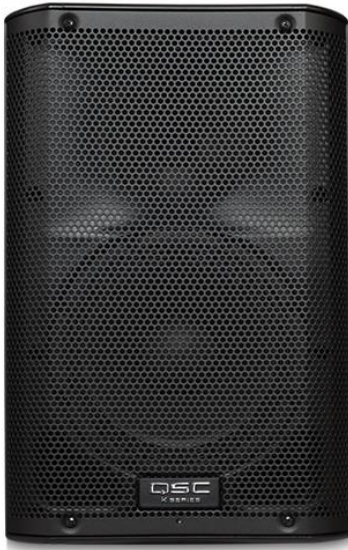

## PA SYSTEMS

You want to hear the Best Man/Woman's speech, right?

Our Sennheiser radio mic systems are used by the world's most famous artistes – so there's no excuse for not getting a professional sound even if the content is dodgy!

**£25/day** and we'll even set it up and show you how to use it to your best advantage.

We don't like to name-drop, but if it's good enough to hire to the Scottish First Minister then we feel it's a good choice of loudspeaker for you too!

The QSC K10 active provides 1kW of power (which is loud), so you'll need to turn it down. Brilliant for speeches, and we even throw in an iPod lead so you can play your music as loud as you like (save money on the disco and spend it on yourselves – you deserve it)!

Two speaker PA system complete with iPod lead, stands and mixing desk **£100/day**.

Need a battery operated system to get married in the woods? This portable PA provides 80W for 6 hours on a single charge, with 2 radio mics, Bluetooth, 3.5mm stereo input and even VHF radio.

Only **£50/day**

We can even supply a smaller battery PA with a single mic, plus Bluetooth, 3.5mm stereo and (switchable) funky disco lighting for only **£30/day**

## LULU & NEIL SEDAKA?

OK, so not everyone has a birthday bash with Lulu and Neil Sedaka providing the entertainment, but this is one of the events we recently supplied with staff, staging, lighting and PA. So if you want a larger system, or just want to have your own Glastonbury Festival (we've done that too) – give us a call and we'll sort it for you.

## DIY DISCO

You could pay for a DJ, there's a lot of good ones out there – but then you may just want to play what you like, as loud or quiet as you want it, and when you want it. Our Numark Mixdeck Express takes CD's, USB sticks and has a professional connection just right for our speaker systems.

Save yourself a small fortune, **only £50/day**. For a real tight budget pair with just one of our K10 speakers for a 1kW disco for £100!

## SILENT DISCO

Music stops at 11:00pm?

Keep getting asked to turn it down?

Don't want to upset the neighbours or just want to dance in the street?

You need our silent disco. Just pop on the comfortable, lightweight battery powered headphones, select which DJ you want to listen to (you can have up to 3 DJ's), turn it up as loud

as you want and PARTY in complete silence.

**Price £2/headphone set with free transmitter(s)**

## KARAOKE

Love 'em or hate them, it's something we get asked for. We supply the software, a large monitor screen or projector for the words and if you send us a list of songs we're even add them to the system (where possible).

If you have a really bad singer – how about using our silent disco headphones and listen to something else?

**Price £250/day inclusive laptop.**

## POP UP CINEMA

If it all gets too much, retire to your own cinema and play your favourite movie – or dump the kids with masses of popcorn for 2 hours me time!

8' x 6' screen, 5000 ANSI projector, 2 speaker soundsystem, blu-ray DVD player

**£450/day**

## POP UP CINEMA ON A BUDGET

Just hire one of our 50" plasma TV's on a trolley stand at **£100/day**.

Add a Blu-Ray player for only **£20/day**

Disney for the kids, photo albums for the adults – it's up to you.

We can even offer 42" plasma TV's at **£80/day**

If you're feeling adventurous, let the best man show a powerpoint along with his speech. Fun for all the family!

## STREAMING/RECORDING

Family or friends too far away to make the wedding? Bring them into the action and let them watch on iPads, computers, mobiles either live or recorded – even on the other side of the world!

Prices on application.

## £50 VOUCHER

You can even add a Scotaudio Gift Voucher to your wedding List (or more than one)! We simply take any voucher receipts off your final bill.

And because we like giving as well, order £500 or more AV equipment from our catalogue for your event and we'll give you a £50 voucher for free! Yes, £50 back in your pockets!

# DELIVERY

Free delivery and collection is offered during normal working hours within a 15 mile travel radius of Dunblane. For areas outwith this distance we charge £0.6/mile return travel to cover mileage and time.

## Our Cancellation Policy

We recognise that needs can change and we do our best to accommodate these changes. If you need to cancel a booking, just notify us at least 8 hours before your event and we waive all charges. Bookings cancelled at shorter notice will be charged at 100% of the hire contract.

## Risk Assessment

Please advise if you require a Risk Assessment and/or Method Statement prior to hire.

## Set up and De-rig

Prices are included in the hire prices stated. For hires outwith normal working hours, or requiring additional personnel we reserve the right to charge per technician:

Monday to Friday, £35 per hour or part thereof

Weekends and all other times, £40 per hour or part thereof.

## Our Equipment Policy

Our programme of investment in new equipment is constant and ongoing to include latest developments and improvements. This means that some items we supply may be newer or equivalent models. We try to minimise changes but if there is a particular feature you require from a specific item of equipment, please tell us at the time of booking. All equipment is regularly maintained and PAT tested annually.

## VAT

All equipment hire and service prices quoted exclude VAT which will be charged at the prevailing rate.
